## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12 and 16-17, drawn to peptides.

Group II, claim(s) 13-15 and 18-20, drawn to use of peptides.

Group III, claim(s) 21, drawn to use of a histag sequence.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: they are classified as a product and use of that product. The product, which is a peptide, is useable in applications other than the use given in claims 13-15 and 18-20, which is a preparation of a medicament. The peptides are known to be useful in other applications such as in the cell, and in differential expression assays.

3. The inventions listed as Groups II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: they are classified as a product and use of that product. They are both "use" claims, however, one is drawn to the use of a peptide for preparation of medicaments and for prevention of bacterial infections, while the other is drawn to the use of a histag sequence, which is different than a peptide alone and has a different function; namely to enhance microbial activity.

Art Unit: 1655

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
